

Goal Setting

“The discipline of managing
the outcome”

Proverbs 21:5

The plans of the diligent lead surely to abundance, but everyone who is hasty comes only to poverty.

FOR PERSONAL USE

Self Management

- Managing outcome is managing self
- Deciding beforehand the desirable result
- Deciding that the desired result is worth obtaining, and work sacrificing for
- Aligning action with intention
- Allowing no stimuli [excuse] to prevent the materialization of the desired result
- Denying natural impulses for the sake of maximizing efforts [habit]
- Things don't "GO" wrong, they **BEGIN** wrong

Principle

- Going nowhere requires no planning and no effort [if you have no plan....]
- “**There**” has to be defined before the “getting” starts
- The best way to get ahead is to get started [procrastination is rebellion against your own destiny]

Jer 29:11 God has ideology, sets goals, implements plan of action to fulfill

FOR PERSONAL USE

Pragmatism

- The discipline of being **practical**
- The habit of forming **strategy**
- The wisdom of examining **consequence** and planning **for it**
- Abandoning theory for **realism**

FOR PERSONAL USE

Priority

- Habit is commitment to “same” you must make change a priority.
- Most of what you already do, reflects commitments to what you already have, to have something different, you must **DO**
SOME THINGS DIFFERENTLY

- **Preparation** always overrides intention: if your **EXCUSES** are more well thought out and prepared than your goals:

YOUR EXCUSES WILL ALWAYS DEFINE YOUR EXPERIENCE, AND LIMIT YOUR ABILITY
